Allowable Subject Matter

1. Claims 1-2 and 4-27 are The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed for reasons set forth by the applicant in the remarks filed 10/24/05. In particular, the examiner was persuaded by the arguments regarding the added limitation that the sidewall spacers comprise carbon-doped nitride without oxide components.

Claims 2 and 4-16 are allowed as being properly dependent upon allowed claim 1.

Claim 17 limits the method to depositing a nitride etch stop layer creating stress in the underlying structure. This limitation, in combination with the other limitations of claim 17 is not taught or suggested by the prior art of record. Hanafi (US006686630B2, US006841831B2, and US006660598B2) and Lin (US006677652B2 and US006475908B1) do not teach the formation of an etch stop layer creating stress in the underlying structure.

Claims 18-27 are allowed as being properly dependent upon allowed claim 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
